

## HIGHEST HONOR GIVEN OFFICER BY PRESIDENT

**Capt. Van Schaick Receives Congressional Medal for Gallantry in the Philippines.**

### COMPLIMENT GOES WITH GIFT

President Wilson today presented to Capt. Louis J. Van Schaick, of the Sixth Infantry, the Congressional medal of honor which was awarded him for bravery in action against insurgent Filipinos in September, 1901. The medal was awarded by direction of the President a week ago.

The particular service for which the medal was given Capt. Van Schaick was rendered in the vicinity of Naugbo, Batangas, Philippine Islands. It is described in this way by an official statement of the case prepared for the President by the Secretary of War:

"While in the pursuit of a band of insurgents, Lieut. Van Schaick was the first to emerge from a canyon, and seeing a column of insurgents and fearing that they might turn and dispatch his men as they emerged one by one from the canyon, he galloped forward and charged with the insurgents, throwing them into confusion until the arrival of others of the detachment."

The presentation of the medal took place in the executive office this afternoon. Besides the Secretary of War and naval aides, there were present General Wood, the chief of staff, members of the general staff, Mrs. Van Schaick, and other relatives of the recipient. Tending the medal, Mr. Wilson said:

"It is a great pleasure to me to be the person to present this medal. The particular kind of gallantry which you showed, may I say, appears to me in an unusual degree, because the officer who knows how to protect as well as to lead his men is the right sort, particularly in a country like ours where our thought is for the rank and file as well as for ourselves. I esteem it an honor to represent a nation which has officers who have this particular impulse and capacity. It is with great pleasure that I present this medal."

Capt. Van Schaick is a brother of Rev. John Van Schaick, Jr., of Washington.

Officer Testifies Relative to Coal Shipments for Pacific Fleet.

In time of war it would be necessary for the United States to charter every vessel in her coast to carry coal to the Pacific for the use of the Navy. This was the testimony of a witness who appeared before the Senate Committee on Territories yesterday and said that practically all of the 30,000 tons of coal shipped annually for Pacific Navy use was carried in British bottoms. The opening of the Alaska coal fields, the subject under consideration by the committee, would enable a Pacific supply of coal shipped from the Atlantic coast cost the Navy an average of \$10 a ton for delivery at Pacific coast points.

Lieut. Commander David P. Boyd testified that complete practical tests of coal from the Behring and Bering coal fields had not been made by the Navy, but that furnace and chemical tests had shown it to be high-grade coal. The committee will hear the testimony of James Wickersham today, and then will conclude the hearings on government construction of railroads in Alaska.

### Pennsylvania Line's Report.

The annual record of transportation of the Pennsylvania Railroad System shows the company now has 11,644 miles of line and 2,000 miles of track. There are some 100,000 shareholders interested in these lines. The system paid out last year \$18,743,312 in wages, or \$2.26 for every mile of track.

### WANT AD HOROSCOPE.

MAY 20.

This is the last day of the rule of Venus over birds in this period, and the sign Taurus is no longer dominant.

This is rather a difficult birthdate to have for it partakes of the double nature of the Gemini sign, with some of the strong characteristics of the Taurus person.

The rule of Venus now gives way to Mercury, a most interesting and powerful planet.

Persons of this birthdate will be found to be very undecided and hard to please. They make loyal friends, but want to rule.

Children born on this date should be reared in the country and given plenty of outdoor exercise and air.

Travel is under propitious ruling. The Want Ads will lead those who seek better places to profitable positions in the country, by the sea or lake.

### JUSTICE GERARD IS LUCKY.

New York Supreme Court Member Offered Several Jobs.

The appointment of Justice James W. Gerard of the New York Supreme Court to an important post in the diplomatic service is confidently expected to be made in a short time. The report that the President had decided to offer the Ambassadorship to Spain to Justice Gerard was given a new impetus yesterday following a visit of Senator O'Gorman to the White House.

### GREEN EXECUTION DELAYED.

Negro to Hang June 9 Following Receipt of Court's Mandate.

Nathaniel Green, colored, convicted of criminal assault and recommended by the jury for capital punishment, will not be hanged on Friday.

Another postponement was granted the condemned man by Justice Stafford yesterday, who set the execution for Monday, June 9. The delay was made necessary by the rules of the Court of Appeals, which provide that fifteen days must elapse between the date of an opinion of the court and the sending of its mandate to the lower tribunal.

Until that notification is received by the lower court the latter has no official knowledge of the affirmation of the conviction of Green. The opinion was rendered last Wednesday and therefore the mandate will not reach the Criminal Court until June 2.

As there are already two executions set for the following Friday, June 4, Justice Stafford's action will be the earliest possible date for the hanging after the receipt of the mandate.
